

This business was established by the current owners in 2001 and has a number of regular real estate and body corporate clients with very large rent rolls (approx 85% of clients are repeat business). The business provides plumbing, draining and gas fitting services with the majority of income being derived from plumbing maintenance services.

The business services residential properties across Brisbane however predominately on the south side and inner city suburbs (although there is occasionally work in the north, east and west).

There is a valuable amount of plant and equipment included in the sale.

The business is for sale for \$199,000 + SAV (approx \$7K).

Please contact us today for a confidentiality agreement.
