

This profitable home nursing service based in south east Queensland has been operated successfully by the current owners since 1995. The majority of patients are elderly and have health issues that require home nursing, most are veterans. The business has an approved provider number with Department of Veterans' Affairs and as a result payment is received easily through an online medicare system.

There is a well trained team of nurses contracted by the business to provide quality care to patients.

There is great potential to expand the region serviced which would grow revenue further.

A business like this is rarely offered for sale. For more information please request a confidentiality agreement.
