

This business which was established in 2005, is a leading utility locating service in Australia. Utility locating is paramount in the protection of essential services and equipment through nondestructive methods.

The business specialises in offering an underground utility locating service, vacuum excavation and CCTV sewer pipe inspections. The business has a large team of experienced utility locators who possess a wealth of knowledge pertaining to all aspects of subsurface utilities. The business is equipped with a variety of state of the art equipment such as radio detectors and radars to detect underground utilities. There is also a specialised fleet of vacuum excavators that provide a non-destructive method of digging utilities.

The business is priced at \$2.5M with over \$1.6M worth of equipment included in the sale.

**Price** : \$2,500,000
